SCRATCH PADS - So convenient to have around the home. 5 lbs $1.25 - Times-Virginian, Phone 352-8215, Appomattox, Va. 2-27-tf

A "Zip seeder" has been placed here for Appomattox farmers to re-establish clover in their pastures. This piece of equipment has two boxes - one for seeding fescue or orchard grass and another for seeding clover or alfalfa.

It is also rigged with a pump and spray equipment for land spraying of paraquat. Paraquat is a herbicide that suppresses the grass and allows the clover to become established.

It's getting late to use this equipment but there's still time. Jerry McCoy, Sales Representative of Cheveron Chemical Company, will be available the later part of this week and next week to assist farmers in using the equipment.

The zip seeder is mounted on a trailer to allow for easy transportation.

Interested farmers should call the Extension Office, 352-8244, and make arrangements for using the equipment.
